THE INFLUENCE OF FLATTERY

"Men should be taught as though you taught them not, And things unknown proposed as things forgot".

This little rough-hewn gem of wisdom, created one hundred and fifty years ago by Benjamin Franklin, contains more sound common sense than many a polished phrase flowing from the cultured pen of some great poet or philosopher. It may even furnish us with the key to the magnetic power exercised over people by influential men of the past and present.

Man is a most peculiar animal. He is always quite willing to be hoodwinked, yet he does not like to feel that others know that he knows he is being hoodwinked. The easiest way to ensure an individual's support is to flatter his vanity. Frequently we find ourselves using this method with others. Occasionally, if we observed ourselves carefully, we might find that someone else is practising the same art upon us. But we never make this discovery simply because we do not wish to do so. It is easier and far more pleasant to banish the lurking suspicion that we are being hoodwinked and continue accepting what we are told at face value.

There is no man more easily deluded than he who prides himself on his immunity from flattery. Some college students in particular are quite gullible, mainly because with a knowledge of little more than the terminology of a subject they desire to be thought more learned than they really are, and so expose themselves to flattery in its most acute form. Unconsciously they place themselves in the same category with those most human people of whom Franklin writes. They become the taught instead of the teachers, the led instead of the leaders. It is not a university's purpose to turn out men of this type, but rather men who can think clearly and broadmindedly, men who will confess mistakes without hesitation and who are never ashamed to learn.

CONDENSED COMMENT

McGill was honoured yesterday by the presence of Colonel John Buchan and Professor Heaton, representatives of widely-separated sections of the British Empire, the former an author of high standing in the world of letters, the latter a Professor of Economics in far-off Australia, and each numbered among the masters of his chosen life work. Frequent visits of lecturers and debaters from the Motherland has taught us to accept as a pre-conceived fact that any men who do come from that country are great men. Colonel Buchan has lived up to our expectation in this respect. It is seldom that a representative of the Australian Commonwealth speaks at McGill, but the impression left among us by Professor Heaton's lecture is to the effect that we wish to hear more of a country that nurtures such learned men.

Rooters who have experienced the dissatisfaction resulting from insufficient accommodation at past rugby games should have nothing to worry about in the future. The new arrangements of the Athletic Board which will be carried into effect at the next game, makes it certain that each rooster will obtain a seat with a minimum of discomfort and a maximum of facility.

DIFFICULTIES WHICH BESET LINCOLN

(Continued from page One)

their complete support. A number of the cabinet members hindered Lincoln, the congress was continually interfering with him. Indeed, in many cases Lincoln was forced by political pressure to make army appointments. The lack of able leaders at first was one of the reasons why the South was at first victorious. As efficient general the North produced might be expected practically the only was Grant who worked his way up through the ranks. Col. Buchan stated that in his mind none of the Northern commanders equalled General Jackson the Southern general. This, the speaker said, led him to his last point. The power of an army depends not only on its size or its training but also on the quality of its leaders. From the time that Caesar first led his army forth to the time that Haig decided to attack the Hindenburg line the quality of intellectual honesty and the power to look facts in the face have been essential in the make up of all commanders. A democracy especially, the speaker

closed, needed leaders, men like Lincoln, men who could see the worst and not flinch and he expressed the hope that in time of need our country would produce men capable of leading it through its crises.

M.S.P.E. AND R.V.C. PLAY FINAL TENNIS

R.V.C. Wins Doubles While M.S.P.E. Wins Singles
HONORS DIVIDED
Final Game Must be Played To Prove Superiority

Despite the chilly weather and the consequent scarcity of supporters the tennis teams of the R. V. C. and the M. S. P. E. played four games yesterday which resulted in divided honors. R. V. C. carried off the laurels in both doubles matches and the M. S. P. E. won both singles.

In the doubles Miss Tweedie and Miss Carter from the R. V. C. both played a steady game and displayed excellent team work. Although Miss Brooks and Miss Ramsay sent some excellent drives from the service line the superior placing and cutting of their opponents brought the match to an end after two sets with the final score of 6-2, 6-3.

In the other game the teams were evenly matched and some keen tennis was seen. Miss Desbarats played a steady and reliable game which coupled with Miss Silver's strong strong service and net play made Miss Capland and Miss Routh exercise much skill in placing and driving. The M. S. P. E. team played well together and stole the second set from the R. V. C. with little effort but weakened in the last set losing 6-2, score 6-3, 2-6, 6-2.

In the singles tournaments the M. S. P. E. turned the tables on the R. V. C. by winning both games.

Miss Heen Taitlaw '25 and Miss Margaret Robertson '25 represented the School against Miss Edith Cochran '27 and Miss Frances Stocking '26 of the R. V. C.

Miss Cochran and Miss Taitlaw, champions of their respective inter-year tournaments, displayed some of the best tennis seen this year at the College. Both players showed excellent style although Miss Taitlaw's powers of placing proved too much for her opponent and gave her the first set 6-0.

In the second encounter Miss Cochran's play improved and the score mounted to 2-2. This being the first time this season that Miss Taitlaw has not had the lead in every set, she recovered herself in the next four games, however and won the set and tournament 6-2.

In the second match between Miss Stocking and Miss Robertson the play was considerably more even. There were frequent rallies in which Miss Stocking matched her well executed strokes and footwork against Miss Robertson's excellent net play and her superior strength and reach of arm. The first of two hard fought sets found Miss Robertson the winner by a score of 6-4, 6-3.

The final scores were.

DOUBLES
Miss Tweedie and Miss Carter (R. V. C.) won from Miss Brooks and Miss Ramsay (M. S. P. E.) 6-3, 2-6, 6-2.

Miss Desbarats and Miss Silver (R. V. C.) won from Miss Capland and Miss Routh (M. S. P. E.) 6-3, 2-6, 6-2.

SINGLES
Miss Taitlaw (M. S. P. E.) won from Miss Cochran (R. V. C.) 6-0, 6-2.
Miss Robertson (M. S. P. E.) won from Miss Stocking (R. V. C.) 6-4, 6-3.

This leaves the score in matches at 2-2 and it is hoped that the argument will be finally decided on Wednesday when a fifth quartette will play the deciding match in the tournament.

Ain't It The Truth?

Getting out a paper is no picnic. If we print jokes we are silly. If we don't, we are too serious. If we publish original matter, they say we lack variety. If we publish things from other papers, we are too lazy to write. If we stay on the job, we ought to be rustling news. If we are rustling news, we are not attending to business in our own department. If we don't print contributions, we don't show proper appreciation. If we print them the paper is filled with junk.

CRACK SHOTS BETTER LAST YEAR'S SCORE

McGill Marksmen Make Good Showing
NEW MEN STAR
Similar Events Held at Other Canadian Universities

In the Annual Intercollegiate Shoot held at Point-aux-Tremble last Saturday, the McGill Rifle Team piled up a total that the other Competing Canadian Universities will find hard to beat. The eight men representing McGill amassed a total of 716 points out of a possible 820, a higher score than that which won the trophy for the team in 1923, so that the chances of retaining last season's laurels are very good indeed. The shooting on the whole was of an high order, and a number of surprises were sprung by new members of the squad. Todd a newcomer to the ranks of McGill marksmen rang up the high total for the day, turning in 99 out of a possible 105, a standard of marksmanship that is seldom surpassed. His best work was at the 500 yard range when he was one point short of a possible 55. Two other new members of the club, Pate and Pope were tied for second place with totals of 92 points. Reg. Henry and Emmions were tied for eighth place with scores of 82, but the former in a very sportsmanlike manner gave up his position in favour of Emmions.

The scores of the first eight men who thus automatically became McGill's representatives for 1924 are as follows:—

	200	500	600	
	yds.	yds.	yds.	Ttl.
Todd	35	54	32	99
Pate	29	33	30	92
Pope	33	32	27	92
Herbert	31	33	31	91
McNab	31	29	30	90
Hunter	31	28	28	87
Taylor	30	32	21	83
Emmions	34	26	22	82

Simultaneously with this shoot, similar events were held at the other competing Universities, and while it will be some time before the final results can be obtained, McGill representatives feel confident that they will make a good showing.

McGILL DEFEATED IN M.S.C. GAME

Play Was Fast—Score 2 to 1 For M.S.C.

The water polo game played last night in the K. of C. tank brought together two old rivals M. S. C. and McGill. The score 2 to 1 in favour of M. S. C. is an indication of the stiff fight put up by McGill against their opponents.

The combination of both teams was excellent especially on the forward line where Adams starred for McGill. Moore who played centre also handled scored for McGill without difficulty as the Red and White mermen were playing an offensive game. In the second quarter the play became faster and the M. S. C. line began to tighten. Luckily for M. S. C. Bastable managed to score by a tricky throw just as the bell rang making 1 to 1.

The hardest fighting took place in the third quarter when each team did its best to gain an advantage. Splendid attempts by means of clever back flips and tricky passes were made by both teams in an unsuccessful effort to score.

In the fourth quarter M. S. C. threw all its energy and vigor into an offensive attitude with the result that Kerry scored the decisive goal, finishing the game with the score M. S. C. 2 McGill 1.

The play throughout was clean and no penalties were given to either team. The line up was as follows:—

	McGILL	M. S. C.
Goals		
William	Woolner	
Defense		
Munro	Kerry	
MacLaren	Foran	
Forwards		
Parsons	Monty	
Adams	Bastable	
Centre		
Moore	Johnson	
Referee	Alex Silver	Judge play
Albert Farmer		

The captain of the McGill team expressed the hope that more men will take an interest in this sport at McGill so that another intermediate team can be entered in subsequent games.

AFFIRMATIVE SIDE WINS CERCLE DEBATE

"Resolved That Professors Are Indispensable At The University"
MAJORITY VOTE
Joint Meeting With Societe Francaise for Nov. 18th

Last evening the Cercle Francais met in the dining room of the Union and in spite of the fact that the celebrated English Author, Col. Buchan was delivering an address to the Canadian Club in the same building, the meeting was a decided success.

The affirmative won the debate, which was the feature of the evening, by a large majority after the power of judgment had been extended to all present by the chairman. The subject of the debate was "Resolved that Professors are Indispensable at the University."

Cauldwell opened the debate for the affirmative. He indicated how necessary the professoriate is in three respects: namely: guiding the students' studies, giving lectures, and correcting examinations.

Dainow for the negative demonstrated the superfluous part which he held professors to play by citing the case of a young woman who left college on account of the failure of the former to be attractive to her. Furthermore, he stressed particularly the obvious absurdity of students attending lectures, pretending to listen and then swamping the library just previous to examinations in order really to acquire a knowledge of the subject.

Nichols, the second speaker for the affirmative, addressed himself mostly to the manifold advantages of a highly trained and cultivated set of men directing the studies of a group of students. He said that governments realize the advantages of establishing scholarships for foreign travel and study on the part of clever embryo professors. With the knowledge and wisdom thus obtained they are quite in a position for which nothing may be substituted.

Roncarelli, the last speaker for the negative, spoke about the early years of the great university of Paris, where professors were in subordinate station to their students. He mentioned the vital need of the development of self-reliance, which is entirely impossible under the direction of professors.

After Cauldwell had given a short refutation for the affirmative, the debate was voted on, the affirmative winning by a large majority. Although the debate was shorter than most, it was entirely up to the usual standard. After the question had been discussed by the meeting at large the club adjourned.

There will be no meeting next week since Monday is Thanksgiving Day. The joint assembly with the Societe Francaise has been announced for the seventeenth, but since this is the night of Mr. Edmund Burke's recital, it will take place Tuesday evening, November 18th. There will be dancing and a debate, the subject and those taking part to be announced later. Beginning with this joint meeting only members (who are defined as those who have paid the customary fee of one dollar) are asked to attend.

MONTCLARE TEAM MEET McGill ELEVEN

Red and White Men Determined to Maintain Record

This afternoon, an unusual event in college athletic will take place when the McGill Soccer eleven will meet a team from the S. S. Montclare. The McGill soccer team will be composed of men from both the first and second squads. This will be of great advantage to the men as this style of practice is invaluable.

Last Saturday the sailors met and held to a 1-1 score one of the city clubs. If this can be taken as evidence of their ability, these "tars" can be depended on to stage a real game.

The McGill players are sure to force the play, and from the Kick-off till the close, they will play with all the zeal and zest which perfect condition and mid-season form can give them. They are both fast, heavy, and have been playing excellent soccer all year. They are all determined that they will win and maintain untarnished their wonderful record. To go a full season without a defeat is no mean accomplishment and a victory to-day will be a crowning achievement.

The McGill team will be composed of the following seasoned men. Basterbrook, Caye, Stephenson, Giovando, Archdale, Helwig, Alroy, Scott, Moffatt and Brain.

THE IMPERIAL

A well balanced vaudeville program without an act which drags, is what the seat purchasers will see at the Imperial this week. Two acts vied for the headline position, the other four provided variety and mirth, and the feature picture rounded out a good evening's entertainment.

The Harry Hayden Co. consisted of a quartet of real merit. They handed out in a popular way, valuable information on the "Love game" evidently founded on deep experience. Many are those who will try the advice so freely given, and varied will be the results.

In every way on a par with the above attraction was that presented by Danny Dugan and Co. showing a maximum of grace and harmony backed by agreeably lighted settings. It is not always that a xylophonist appeals to the audience, but Freddie Sanborn's masterly handling of the sin hammers drew pounds of applause and his work contributed much to the success of the principals. Dugan with his partner, Miss Ann Aker, presented a dance variety of a high order.

The Diaz Sisters and Company are always on the move and in a lively and charming way do some of real difficulty on the steel wire.

Miss Ruby Norton sang and danced—and she sang better than she danced. Her ability showed itself chiefly in her rustic and southern pieces and even a Monday night audience appreciated them and brought her back for an encore. Clarence Senna, her partner at the piano made himself popular with his analysis of a few late songs.

Lea Francis of Francis and Hine, supported the use of the modern and comfortable garb by the fair ones. From custom the representative of the fumer sex did not take kindly to her ideas and the eternal struggle continued.

Jack Sidney kept the audience with him in his presentation of old and new songs and stories.

"This Woman, starring Irene Rich, showed another phase of the poor, unfortunate, though educated, girl "trying to get along." She did—after overcoming the hard-heartedness of her ideal and the unscrupulousness of the plotters. The end, however, was attained only after an excess of time spent on a slow-moving plot. Creighton Hale provided the earlier part of the film.

MEDS. DEFEAT ARTS IN GRIDIRON BATTLE

Good Rugby in Inter-faculty League Game

In almost winter weather Arts went down to defeat at the hands of the strong medical team yesterday afternoon. The final score was 7 to 0 in favour of the "Meds." although Arts fought bravely to down their opponents.

The game started at three o'clock and Medicine stepped into the lead when Chisholm kicked to the dead-line in the first quarter. Both teams tried hard to score again but failed. In the second quarter after the play had shifted from one side of the field to the other Arts fumbled and Rankin ran over for a touch making the score at half-time 6-0.

In the last half only one point was scored when Chisholm kicked and Arts were forced to rouge. A serious injury occurred to Patterson—Smythe who was kicked in the head and had to retire for the rest of the game.

Arts made furious attempts in the last quarter to cross the line but the Med team thwarted all their efforts and the game ended with the score 7-0.

On the whole a good class of rugby was exhibited and in spite of the cold weather there were few fumbles especially on the Medical side of the field.

Although all the men on both teams worked hard those who merited special mention were Chisholm and Rankin for the winners and Brown and Macdonald of the losing side.

The line up of the teams is as follows:

HARD WORKOUT FOR BASKETBALLERS

Montreal Basketball League Held Meeting Last Night

The Aspirants for the various college basketball teams met yesterday afternoon in the gymnasium of the High School and although the attendance was good, there is plenty of room for more men.

Those who intend to try for the teams should do so immediately. All of last year's players are urged to turn out, for with so many competitors it is evident that the regulars will have to fight hard to retain their positions. Coach Van Wagner after giving some timely advice to those present put them through their paces and kept the men busy. According to present indications McGill's chances are very good for the coming season.

All who are coming to the next workout must be physically examined. This is absolutely necessary. Also for future practices foreign insignia are banned and it was definitely announced that it will be impossible for a player wearing the red and white colors to pay for any other team in the coming year.

Last night a meeting of the M.T.I. Basketball league was held at the M. A. A. There it was decided that an exhibition game would be played between either McGill or M. A. A. to defray the expenses of the league. A. Seniors and an all star team to Thirty five applications for admission to the league were accepted 5 Senior 14 Intermediate, 9 Juniors and 7 Juveniles. The schedule is to be drawn upon Nov. 11 and the season will be in full swing by the 1st week of December.

\$1000 SCHOLARSHIP FOR WOMEN GRADS.

Offered by Canadian Federation of University Women

Those interested in obtaining scholarships will be glad to hear that another Travelling Scholarship of \$1000 is being offered by the Canadian Federation of University Women. Although the Federation prefers candidates who have completed one or two years of graduate study and have a definite research in view, the scholarship is open to any woman holding a degree from a Canadian University. The award is based on evidence of character and ability of the candidate and promise of success in the subject to which she is devoting herself.

Candidates must apply by letter to the Convener of the Scholarship Committee, Mrs. Douglas Thomas, 2220 16th Avenue, Regina, Sask., not later than February 1, and the application must contain an account of the applicant's educational training, and state in full of the plan of study or research she intends to pursue. A written statement from the President of the University or College awarding the degree held by the applicant approving the candidature must also be enclosed together with testimonials regarding scholarship, health and character, and these published and unpublished. The scholarship is payable to two equal instalments on July 1 and January 1 by the Treasurer of the Federation. Choice of the university in which the successful candidate is to study is left to the committee of selection in consultation with the candidate.

At the end of her tenure, the candidate must send a report of her work, together with a statement of its worth from the professor or other authority conversant with her research to the Convener of the Scholarship Committee.

The Gallery God

Note of Lamentation. Since the advent of the American Mercury I have lost much in exclusiveness. So rapidly has this excellent magazine expanded in circulation and reputation that there is hardly a person around college today who, even if he does not read it, has not heard about it; and to be an admirer of Mencken and Nathan now is nothing to exult in. Their battle has been fought and won.

But when these two worthies were directing the fate of The Smart Set then, I repeat, it was the mark of the literary aristocrat to be one of their clan. Its circulation was surprisingly small. Even those persons who were more or less acquainted with the magazine field placed it in the same category as the Snappy Stories and Telling Tales series. If I remember correctly, it was even distributed by the same agency as these magazines. At any rate, its appearance certainly justified this ranking.

I was first converted into its following some five years ago by a professor of English whom I met at a summer camp and whom I gave a calling down for reading such trash. From then on until it was divorced last winter by its editors I revelled in its pages. There were the covers, the novelettes and short stories by Dorothy Parker, Marjorie Spitzer, Thyra Sampter Winslow, Ruth Suckow, F. Hugh Herbert, Aldous Huxley and Co., the articles by Charles Shaw, the Americans, the theatre and book, and the general underling tone of the magazine is dignified; the Smart Set delighted itself by its willfulness and devilishness. The Mercury is the middle-aged man with greying temples protesting eloquently and crudely against the current opinions and notions; the Smart Set was the precocious young man cracking heads with the utmost irresponsibility, the droll war whose stories showed flashes of real truth, genuine beauty and utter nonsense.

It was a favourite stunt of ours in those days to sport The Smart Set in circles which prided themselves on their literary choices. We were usually met with loud guffaws and heehaws from the select, and they passed several remarks about the low standard of our reading taste. Upon questioning them we found out invariably that they knew absolutely nothing about it; and then it was our turn to, first, mock them for their ignorance and follow this by a panegyric on the standing of the magazine and the merit of its editors.

But what was, perhaps, the crowning glory—including the motley assortment of the ads—were the aphorisms interspersed throughout the magazine. Those were the times when we hugged closely to our bosoms such bright gleanings as "When a woman hears a man railing against matrimony she agrees with him first and marries him after," or "A wise woman never cries. She merely threatens to cry," or "A man often insults a woman by not insulting her," or "A man can never kiss a woman unexpectedly. The best he can do is to kiss her a little sooner than she expected," or "A man has a much better time of life than a woman. For one matter, he marries later, for another, he dies sooner." With what dogma and air of worldliness we exploded these in the respectable group of our friends yet in their teens.

I shall never cease mourning for the loss of The Smart Set. The Peter Pan of the magazines has grown up and changed its name to The American Mercury.

QUEENS AND VARSITY DEBATE WITH R.V.C.

A letter from Queens on the subject of Women's Intercollegiate Debating was read at a meeting of the Delta Sigma Society which was held yesterday. Plans are not yet definitely made but it is expected that R. V. C. teams will debate on the same day at Toronto with Varsity and at R. V. C. with Queens, sometime before the end of November. A subject has not been finally decided upon as yet.

The new constitution which has been drawn up for the Delta Sigma Society was approved, with one amendment to the effect that the president should be a student of at least three years standing, but not necessarily an undergraduate in Arts. It was announced that at the next meeting of the Society the first of the inter-class debates would be held. First Year will debate with Second Year at this meeting.

MCGILL WAR RECORD TO BE ISSUED SOON

Will be in Book Form—Preface by Sir Arthur Currie

A complete list of all McGill men who were in the Majesty's Service during the late war will soon be issued in book form. It will contain the names of the 3,041 men who enlisted, including the 356 men who were killed in action or died on service.

This Honor Roll has entailed three years of strenuous work due to the desire of the compilers to omit as few details of general interest as possible.

A photograph of each man who gave his life will appear in the book. The full name of each man who served, his faculty, the time during which he was a student at the university, his degree, if a graduate, his enlistment date, his rank, the units in which he served, his honors and the field in which he served will be included, together with particulars of wounds or capture by the enemy. In the case of those killed in action, date and place, will be stated.

The work of compiling the list has been heavy, and although every means of obtaining correct information has been taken, some details are still missing in several cases. Most of the information in the case of the Canadian army has been obtained through the Record Office at Ottawa, and this has been supplemented by newspaper records and interviews with the next of kin. In the case of men serving with the Imperial and other armies, the British War Office has been consulted, but the information obtained from this source has not been as full and reliable as information from the Canadian Record Office, owing to the large numbers of men in the Imperial Army with similar names.

Just how many copies of the book will be printed, how it will be bound, the design of the cover and many other details will be decided at a meeting of the committee in charge of the work to be held tomorrow afternoon at the University.

It is considered certain that the book will contain a preface by General Sir Arthur Currie, Commander of the Canadian Expeditionary Force, and Principal of McGill University.

THE BEGGAR'S SONG

The loves of kings are paltry things
Dyed bright in the vats of shame,
But the beggar's love is a star above
Lapped round with a purple flame.

A king may trade for a pleasing jade—
One half of his kingdom's gold,
But the rainbow's end for the pauper's friend

One touch of lust and our loves are
Dust,
Dust and a beauty stained;
So ho, for a load and the open road,
And a love that's unattained!
